Read Books, United Kingdom, 2007. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This text provides a handbook designed as an aid for chemistry teachers. Including handy tips and a wealth of invaluable information, this volume is highly recommended for those with an interest in teaching chemistry - and would make for a great addition to collections of antiquarian literature of this ilk. Contents include: Observation Qualitative, Observation Quantitative, Chronological Table, Founders of Chemistry, Molecular Weights and Formulae, Atomic Weights Classification, etcetera. Many vintage books such as this, especially those dating back to the 1900s and before, are increasingly hard to come by and expensive, and it is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition. It comes complete with a specially commissioned new biography of the author. This book was first published in 1896.
