By Frederick Toms

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 Excerpt: . or any signs of putrefaction, and quite cold; but if lightened and exposed long to the air, will again begin to ferment and heat. Thus, if the weight is taken off the edge where it has been cut away from, it will begin to heat and smell like sweating hay, and the cattle seem to like it well when warm; but it will shortly begin to dry, and mould. We are feeding it to seven cows which calve early in the spring, and are therefore naturally fast losing their milk; yet they improved considerably for three weeks after coming from hay. The milk has a slightly altered flavour from that of hay; but the butter is very good in flavour and colour, much better than hay butter. The cattle are extremely fond of it, and this is a good test of its quality. They all...
