Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Marvels of Animal Life Many of the observations chronicled in the following pages were made during a long residence upon a coral reef or atoll, some while swimming under water along the bristling coral banks that formed a characteristic feature of our tropical home, and others are the memories of many practical collecting tours in various localities in search of specimens valued by the lover of nature. The chapters relate to widely different subjects; the strange forms of animal life found in various parts of the world, that from the striking evidence of design in their structure and ways are deemed the marvelous productions of the Great Maker. Natural objects are not appreciated by the majority of young people until the attractive side has been pointed out, and I have endeavored to accomplish this by presenting some of the thoroughly interesting features of nature that will incite my young friends to take to the woods and streams, and become investigators themselves, selecting some of the subjects - mimicry, nest-building fishes, etc. - as their specialties. The way to study the sword-fish is to first go swordfishing, if you can, and so with all natural studies, take to the field and arouse an interest for the work to be done. I have told about sharks and other animals while giving my own experience with them, in this way hoping to show how much profit and pleasure may be derived from personal observation in these and other subjects.
