

## Junk Drawer Chemistry: 50 Awesome Experiments That Don't Cost a Thing

Filesize: 8.49 MB

### Reviews

*The book is great and fantastic. It is written in straightforward words and phrases rather than difficult to understand. You won't really feel monotony at any time of your respective time (that's what catalogues are for regarding should you question me).*

*(Payton Miller)*

Chicago Review. 1 Paperback(s), 2016. soft. Book Condition: New. You don't need expensive lab equipment to conduct chemistry experiments, notes high school physics teacher Bobby Mercer; in fact, you probably have all you need in your home junk drawer. Here he shows scientists 9 and up how to turn three pennies and two galvanized washers into a simple battery, and convert an LED flashlight into a simple electrolyte tester. You can use a 9-volt battery and thumbtacks to break water molecules into oxygen and hydrogen; mix water and cornstarch to create a gooey, non-Newtonian fluid; and model radioactive decay using M&M candies. Each of the projects has a materials list, illustrated step-by-step instructions, and a brief explanation of the scientific principle at work. 206.
